##### PART 1220—OILSEEDS

###### SET ASIDE REQUIREMENTS FOR PROCESSORS

Pursuant to the authority vested in me by Food Production Order No. 9, Revised (8 F.R. 13363), issued on September 30, 1943, and to effectuate the purposes of such order pertaining to set aside requirements for oilseed meal produced by processors, and to secure an equitable distribution of such oilseed meal, it is hereby ordered, as follows:

§ 1220.3 *Set aside requirements for processors of oilseed*—(a) *Amount to be set aside*. Each oilseed processor shall set aside 20 percent of his production of cotton seed, soybean, linseed and peanut oil meal, cake, or pellets (hereinafter called "oilseed meal") during the calendar month of January 1944, or an amount equal to six times his average daily production during the thirty-day period preceding January 1, 1944, whichever is less. The amount of production upon which the quantity of oilseed meal set aside is based, shall not include any oilseed meal produced for the Commodity Credit Corporation under the provisions of contracts designated "CCC Soybean Form 106, 1943 Crop" and this order shall not apply to oilseed meal produced under such contracts.

(b) *Sale and delivery of oilseed meal set aside*. (1) Oilseed meal set aside pursuant to this order shall not be sold or delivered by any processor except to the holder of a Certificate of Designated Buyer issued by the Agricultural Conservation Committee for the State or county in which the buyer's farm or establishment is located. ### TITLE 19—CUSTOMS DUTIES

#### Chapter I—Bureau of Customs

[T.D. 50974]

##### PART 19—CUSTOMS WAREHOUSES AND CONTROL OF MERCHANDISE THEREIN

###### BONDING OF PASTURES FOR WAREHOUSING OF CATTLE OR OTHER ANIMALS DISCONTINUED

NOVEMBER 30, 1943.

Section 19.1 (a) (8 F.R. 8395) Customs Regulations of 1943 (19 CFR 19.1 (a)), is hereby amended by changing the subparagraph relating to customs warehouses of class 4 to read as follows:

*Class 4*. Bonded yards or sheds for the storage of heavy and bulky imported merchandise; stables, feeding pens, corrals, or other similar buildings or limited enclosures for the storage of imported animals; and tanks for the storage of

imported liquid merchandise in bulk. If the collector deems it necessary, the yards shall be enclosed by substantial fences with entrance and exit gates capable of being secured by customs locks. The inlets and outlets to tanks shall be secured by means of seals or customs locks in combination with steel chains.

(Secs. 555, 556, 557, 560, 561, 624, 46 Stat. 743, 744, 745, 759, 52 Stat. 1077, 1087, 1088; 19 U. S. C. 1555, 1556, 1557, 1560, 1561, 1624)

As a result of this amendment the establishing of pastures as customs warehouses of class 4 for the storage of imported cattle or other animals shall not be permitted as it has become clear that the operation of such pastures cannot be permitted without prejudice to the revenue. The amendment, however, shall not preclude the entry of cattle or other animals for warehousing in suitable stables, feeding pens, corrals, or other similar buildings or limited enclosures which have been or may hereafter be approved by the Bureau of Customs as customs warehouses of class 4.

The foregoing amendment shall be effective thirty days after publication thereof in the weekly Treasury Decisions, but no bonded pastures shall be established during such thirty-day period.

Cattle or other animals entered for warehouse before the effective date of this amendment may remain in the bonded pastures for the statutory warehousing period, but each bonded pasture shall be discontinued by the Bureau of Customs promptly upon the withdrawal of all of the cattle or other animals warehoused therein. Collectors of customs shall notify the Bureau promptly as each bonded pasture becomes free of imported merchandise.

Proprietors of bonded pastures (warehouses of class 4) shall not hereafter be required to execute superseding bonds on the revised customs Form 3581 in accordance with Bureau of Customs Circular Letter No. 2393.

W R. JOHNSON,  
Commissioner of Customs.

Approved:

HERBERT E. GASTON,  
Acting Secretary of the Treasury.

## TITLE 31—MONEY AND FINANCE: TREASURY

### Chapter II—Fiscal Service

#### Subchapter A—Bureau of Accounts

#### PART 212—PAYMENT THROUGH DEPOSITARY BANKS OF FUNDS WITHHELD AS TAXES IN ACCORDANCE WITH THE PROVISIONS OF THE CURRENT TAX PAYMENT ACT OF 1943

##### MISCELLANEOUS AMENDMENTS

NOVEMBER 30, 1943.

The sixth paragraph of § 212.6 *Accounts, forms, and procedure of depositaries for withheld taxes* of Title 31 of the Code of Federal Regulations (8 F.R.

9046) appearing also as the sixth paragraph of section 7 of Treasury Department Circular No. 714, dated June 25, 1943, as amended, is hereby amended to read as follows:

The original and Federal Reserve Bank copy of each depositary receipt must be signed by an officer or employee duly authorized by the depositary. This signature may be in any one of the following forms: (1) a manual signature of a duly authorized officer or employee followed by the title of such officer or employee; (2) a rubber stamp impression containing the name of the depositary supported by the manual initial of the receipting officer or employee and followed by his official title; (3) a facsimile or rubber stamp impression signature of a duly authorized officer over his official title, supported by the manual initial of such officer or the employee receiving the deposit; or (4) a facsimile or rubber stamp impression signature of a duly authorized employee over his official title, supported by the manual initial of such employee. It is preferable that initials or manual signatures be in ink; however, if made by pencil they will be acceptable.

The fifth paragraph of § 212.7 *Provision for offsetting costs of depositaries for withheld taxes* of Title 31 of the Code of Federal Regulations (8 F.R. 10348) appearing also as the fifth paragraph of section 8 of Treasury Department Circular No. 714, dated June 25, 1943, as amended, is hereby amended to read as follows:

The initial allotment to a depositary for withheld taxes under either of the two alternative methods will be calculated on the basis of the business transacted under this part by the depositary during the calendar month immediately succeeding that in which the depositary was qualified. However, if specifically requested by a depositary, the initial allotment may be made on the basis of the business transacted during the calendar month in which the depositary was qualified. If more than one full calendar month elapses after a bank qualifies as a depositary for withheld taxes before it enters a subscription for the initial allotment, such initial allotment should be calculated on the basis of the average business transacted monthly by the depositary during the preceding full calendar months; however, if the elapsed period is more than six months, the initial allotment will be calculated on the basis of the average business transacted monthly during the six full calendar months preceding the request for the initial allotment. The initial allotment will be made as of the first day of the second calendar month following the close of the period which is used as a basis for determining the amount of such initial allotment. For example, if the business transacted during the period ending November 30, 1943, is to be used as a basis for calculating the initial allotment, such initial allotment will be made as of January 1, 1944.

The sixth paragraph of § 212.7, *Provision for offsetting costs of depositaries for withheld taxes* of Title 31 of the Code

of Federal Regulations (8 F. R. 9046) appearing also as the sixth paragraph of section 8 of Treasury Department Circular No. 714, dated June 25, 1943, as amended, is hereby amended to read as follows:

Appropriate adjustments in allotments will be considered periodically on the basis of fluctuations in the business transacted after the initial allotments are established. The first of such adjustments will be made as of January 1, 1944, on the basis of the average monthly business transacted during the calendar months from the close of the period used for the establishment of the initial allotment to November 30, 1943. Thereafter, appropriate adjustments will be made as of July 1 and January 1 on the basis of the average monthly business transacted during the periods from December 1 to May 31 and June 1 to November 30, respectively. *Provided, however* That in the case of a depositary which received its initial allotment during such preceding six-month period, the adjustment will be based on the business transacted from the close of the period used in establishing the initial allotment to May 31 or November 30, as the case may be.

[SEAL] D. W. BELL,  
Acting Secretary of the Treasury.

If the application is denied, the purchase order will be returned to the applicant.

(d) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priorities control and may be deprived of priorities assistance.

shafting supported by three or more bearings.

(b) *Conveying machinery.* The materials listed below are restricted or prohibited in the construction of conveying machinery, as prescribed below; except as the War Production Board may waive compliance with any such restriction or prohibition, upon application, by the manufacturer or purchaser by letter or other communication, setting forth pertinent facts disclosing the necessity for such waiver.

(1) *Bins, bunkers, hoppers and tanks (when used as part of conveying machinery or equipment).* No metal shall be used in bins, hoppers, tanks, or bunkers having a capacity of more than 400 cubic feet level filled, except in clips, gussets, bolts, nuts, screws, lag screws, hinges, tension rods, reinforcing bars or mesh, washers, and hopper bottoms of less than 400 cubic feet capacity. No steel plate of a thickness in excess of  $\frac{1}{4}$  inch shall be used in bins, tanks, or hoppers with a capacity of less than 400 cubic feet, level filled. No liner plates of steel shall be used in steel bins, steel tanks, or steel hoppers. Steel liners for wood bins or wood bunkers shall not exceed No. 10 U. S. gage in thickness.

(2) *Conveyors and elevators.* No alloy steel or alloy iron, except Hadfield manganese steel, shall be used for parts of chains (other than chains for the transmission of power), except for (1) pins and bushings in steel conveyor chains or cast sprocket chains, or (2) chains used in the heat zone of heat treating and metallurgical furnaces, to the extent permitted under Order M-21-g. No bushings other than carbon steel or gray iron shall be inserted in bores of conveyor chain rollers.

(3) *Conveyor and elevator sprockets.* No alloy steel or alloy iron shall be used in chain sprocket wheels, except for sprockets to be used in the heat zone of heat treating and metallurgical furnaces, to the extent permitted under Order M-21-g.

(1) *Anti-friction bearings.* (i) Anti-friction bearings shall not be used in hangers, pillow blocks, loose pulleys, and clutch pulleys for line shafting except for the following purposes, as certified by the purchaser:

(A) The reduction or elimination of fire hazards resulting from the combustible nature of the material being processed.

(B) Reduction or elimination of waste due to spoilage.

(C) Reduction of starting or running loads where the use of anti-friction bearings will correct an overload pertaining to the primary source of power.

(D) The repair or replacement of bearings for line shafting: *Provided, however,* That no anti-friction bearings shall be used for repair or replacement purposes for line shafting not previously equipped with such bearings.

The above mentioned certification by the purchaser shall be included in or shall accompany the purchase order, shall be signed by a duly authorized official of the purchaser, and shall be in the following form:

#### PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 5, Direction 14]

#### USE OF MRO SYMBOL BY MANUFACTURERS OF ROLL ROOFING, SHINGLES AND CORK BOARD

The following direction is issued pursuant to CMP Regulation 5:

(a) A manufacturer of asphalt shingles, asphalt roll roofing, asphalt siding, asbestos shingles, asbestos siding, or cork board may use the MRO symbol to buy steel nails which he will deliver along with such products for use in applying them. The use of the MRO symbol for this purpose is limited to orders calling for delivery of steel nails to the manufacturer after December 31, 1943. He may not use the MRO symbol to buy more steel nails than needed to apply the asphalt shingles, asphalt roll roofing, asphalt siding, asbestos shingles, asbestos siding or cork board with which he delivers them, and he must not increase the quantity of steel nails delivered with any unit of such product over the quantity he delivered with such unit during the year 1943.

(b) A manufacturer buying steel nails under this direction does not have to charge them against his MRO quota.

(c) After December 31, 1943, a manufacturer who can purchase his steel nail requirements under this direction must not get them under Order M-21-b-2 relating to steel warehouses and dealers, or under any other regulation or order. The provisions of Order M-21-b-2 or of CMP Regulation No. 4 shall not apply to such a manufacturer after December 31, 1943, so far as the purchase and sale of steel nails bought under this direction are concerned.

PART 3285—LUMBER AND LUMBER PRODUCTS  
[Conservation Order M-364]

HARDWOOD LUMBER

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of hardwood lumber for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3285.106 *Conservation Order M-364—(a) Definitions.* For the purposes of this order:

(1) "Restricted hardwood lumber" means any sawed hardwood lumber (except shingles, lath, or railroad cross-ties) of any size or grade, whether rough, dressed on one or more sides or edges, dressed and matched, shiplapped, worked to pattern, or grooved for spines, of the following species: oak, ash, hickory, yellow birch, hard maple, rock elm, and beech, manufactured or processed by a producer.

(2) "Producer" means any plant which processes, by sawing, edging, planing or other comparable method, 25% or more of the total volume of logs and lumber purchased or received by it, and which sells or otherwise disposes of the product of such processing as lumber; except that "producer" does not include any sawmill which produced less than 10,000 feet, board measure, of restricted hardwood lumber per average day of eight hours of continuous operation during the six calendar months preceding the month in which this order takes effect, or which currently so produces on the average less than 10,000 feet, and does not include any establishment known in the trade as a local retail yard whose operations are confined principally to distributing lumber locally and which processes as an incident thereto for the servicing of customers, and does not include any sawmill engaged in local retail distribution in areas not served by retail yards, to the extent that it is so engaged.

(3) "Volume" means board foot volume processed or sold within the six calendar months immediately prior to

the month in which the transaction affected by this order occurred.

(4) "Procuring agency" means the Central Procuring Agency of the Construction Division of the Corps of Engineers of the United States Army.

(b) *General restrictions.* No producer shall sell, ship or deliver (including delivery by a producer to any distribution yard, box factory or cut-up plant of such producer) any restricted hardwood lumber except that:

(1) Any producer may sell, ship or deliver (either directly or through one or more intervening persons) any restricted hardwood lumber to or for the account of the Procuring Agency or to or for the account of any contractor or other person designated by such agency, but only if there is endorsed on the purchase order or contract for such lumber a statement in the following form, signed manually or in the manner provided in Priorities Regulation No. 7:

All restricted hardwood lumber covered by this purchase order (or contract) is to be sold, shipped or delivered to, or received by, the Central Procuring Agency, Corps of Engineers, or a contractor or other person designated by such Agency on a specific purchase order (or contract) already entered, in compliance with paragraph (b) (1) of Conservation Order M-364, with the terms of which I am familiar.

## Chapter XI—Office of Price Administration

## PART 1305—ADMINISTRATION

[Gen. R.O. 7, Amdt. 5]

METHOD OF SURRENDER AND DEPOSIT OF  
RATION STAMPS AND COUPONS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.\*

A new section 1.9 is added to read as follows:

SEC. 1.9. *Certain persons may get permission to "mix" and "average" stamps.*

—(a) *Who may "mix" and "average" stamps.* (1) A wholesaler or retailer of foods covered by Ration Order 16, or Ration Order 13, who regularly deposits for the credit of his establishment at least 500,000 stamps per week designated for the acquisition either of processed foods or foods covered by Ration Order 16, or both, may apply for permission to "mix" and "average" stamps in accordance with the procedure described in the following paragraphs.

(2) If he has more than one establishment of the same kind which are registered separately, each such establishment must be treated separately for purposes of this section. If he has more than one establishment of the same kind which are registered together, he may apply for permission to mix and average stamps for any one establishment or for one or more groups of these establishments, if he regularly deposits at least 500,000 stamps per week designated for the acquisition either of processed foods or foods covered by Ration Order 16, or both, for the credit of such establishment, or of such group or groups of establishments.

(b) *Where application must be made.* If application is made for a single establishment, the application shall be made to the District Office for the place where such establishment is located. If application is made for one or more groups of establishments which are registered together, separate application shall be made for each group to the District Office for the area where the place described in paragraph (c) (5), at which stamps will be mixed and averaged for the group, is located.

(c) *What application must state.* The application must be made on OPA Form R-315, and must state:

(1) The names and addresses of the establishments which will participate;

(2) Whether they are wholesale or retail establishments;

(3) The smallest number of stamps of the kinds described in paragraph (a) which he deposited for the credit of those establishments in any calendar week since October 1, 1943;

(4) The name and address of the bank with which the ration bank account for the participating establishments will be maintained; and

(5) The address of a place at which the stamps from the establishments covered by the application will be mixed,

enclosed in envelopes, "sampled" (by counting the contents of one envelope in every twenty so prepared), and "averaged" in the way described in paragraph (e) of this section.

(d) *Action by the District Office.* The District Office shall grant the application if it finds that the applicant meets the requirements set forth in paragraph (a).

(e) *How stamps are "averaged" and deposited.* If the District Office grants the application, the applicant may, at the place designated by him in paragraph (c) (5) of this section, mix stamps of different point values used under the same ration order. All stamps must be mixed thoroughly in accordance with instructions given by the District Office which granted the application. The applicant must then enclose such stamps in envelopes in quantities of 5,000 stamps per envelope. (Envelopes containing stamps authorizing the acquisition of foods covered by Ration Order 16 must be kept and handled separately from envelopes containing stamps authorizing the acquisition of processed foods.) One envelope in every twenty or fraction thereof, containing stamps mixed on the same occasion, must be selected at random, in accordance with instructions issued by District Office and the stamps in it separated by denominations and counted so as to determine the actual total point value of the stamps in the envelope. Such actual total point value shall be divided by 5,000 and the resulting average point value shall, for the purposes of deposit, be considered to be the value of each stamp in each of the twenty envelopes or fraction thereof, from which the selected envelope was chosen. However, if more than twenty envelopes containing stamps mixed on any one occasion are to be deposited at one time, the average point value of each stamp shall be computed by taking the average of all the envelopes counted. A ration bank account in which "averaged" stamps will be or have been deposited may not be used for the deposit of stamps which have not been so "averaged". Every establishment for which the procedure described in this section is adopted may, for the purpose of determining the point value of sales or transfers (as required by Ration Orders 13 and 16), assign to each stamp received by it the average point value at which that stamp was deposited.

(f) *What stamps must be "mixed" and "averaged".* All stamps received by any establishment covered by a single application (other than one point stamps designated for the acquisition of foods covered by Ration Order 16 which have been or will be used for change) must be sent by such establishment to the place described in paragraph (c) (5) for "mixing" and "averaging" in accordance with this section.

(g) *Certified public accountant must be engaged to perform certain functions.* All stamps must be mixed, all envelopes must be opened, all stamps must be separated into denominations and counted, and all the computations required by this section must be made, under the direct supervision of a certified public accountant engaged for that purpose by, and at

the expense of, the applicant. Moreover, where any certification is required by this section, the certification must be made both by the certified public accountant, and by the applicant.

(h) *Reports.* Every retailer or wholesaler authorized to adopt the procedure set forth in this section must, within two days after the end of each calendar week, submit a report on OPA Form R-107 to the District Office which granted his application. The report must cover the preceding calendar week, must give all the information called for by the form separately for Ration Order 13 and Ration Order 16 stamps, and must contain a certification that all "mixings", "samplings", computations, and assignments of average point values were made in accordance with this section. The report shall be accompanied by duplicate deposit slips, verified by the bank with which the applicant has his ration bank account, for all deposits made during the week covered by the report. A duplicate copy of each report must be kept at the place designated under paragraph (c) (5).

(i) *Miscellaneous.* Every wholesaler or retailer authorized to adopt the procedure set forth in this section must permit any authorized representative of the Office of Price Administration to inspect or supervise the conduct of any phase of such procedure. Any wholesaler or retailer who has obtained an authorization under this section may, upon notice to the District Office, cease to operate under this section, or the Office of Price Administration may, upon notice to him, withdraw the authorization at any time.

This amendment shall become effective December 1, 1943.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Except as otherwise provided herein, the maximum prices herein set forth shall include duties, brokerage, commissions, insurance, handling charges and all other charges and shall not be increased by any charges for the extension of credit.

**Sec. 2. Less than maximum prices.** Lower prices than those set forth herein may be charged, demanded, paid or offered.

**Sec. 3. Applicability.** The provisions of this Revised Maximum Price Regulation No. 296 are applicable to the forty-eight states and the District of Columbia and supersede Maximum Price Regulation No. 296 as to all flours mentioned in section 1 hereof.

**Sec. 4. Adjustable pricing.** Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending; but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by an official of the Office of Price Administra-

tion to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

**Sec. 5. Evasive practices.** The provisions of this regulation shall not be evaded, whether by direct or indirect methods, in connection with any offer, solicitation, agreement, sale, delivery, purchase, or receipt of or relating to flour from wheat, semolina and farina alone or in conjunction with any other commodity, or by way of commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying agreement, or other trade understanding or by any other means.

**Sec. 6. Records and reports.** Every person making a purchase or sale of flour from wheat, semolina or farina in the course of trade or business shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records for each such purchase and sale, including the date thereof, the names of the seller and purchaser, a description of the commodity sold and the price paid: *Provided*, That in the case of sales of ten hundred weights or less the seller and purchaser shall keep only such records as they customarily kept at the effective date of this regulation.<sup>2</sup>

**Sec. 7. Carrying charges.** Carrying charges may be added to the maximum prices for flour from wheat, semolina and farina set forth in Appendix A hereof, other than those maximum prices set forth in paragraph VI of Appendix A. Such carrying charges shall not exceed  $\frac{1}{2}$  of a cent per hundredweight per day for each day's delay in shipment beyond 60 days from the date of the contract of sale or beyond the delivery date specified under such contract, whichever is later, which is caused by the failure of the buyer to furnish shipping instructions (and necessary containers, if sale is made on a bulk basis) in accordance with the specifications of the contract of sale.

**Sec. 8. Enforcement.** Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, and suits for treble damages, and proceedings for suspension of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

**Sec. 9. Federal and State taxes.** Any tax upon, or incident to, the sale, delivery, processing or use of flour from wheat, semolina or farina, imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such commodity and in preparing the records of such seller with respect thereto: If the statute or ordinance imposing

such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased: *Provided, however*, That the tax on transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall, for purposes of determining the applicable maximum price of any product covered by this Revised Maximum Price Regulation No. 296, be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated as a tax for which a charge may be made in addition to the basic price. Whenever in this Revised Maximum Price Regulation No. 296 a maximum price is determined by adding a transportation charge to a basic price, the transportation charge shall be the charge computed by using the applicable transportation rate and adding thereto 3% of said transportation charge.

**Sec. 10. Exempt sales.** Whenever circumstances of emergency make the purchase of flour from wheat, semolina or farina by the United States or any of its agencies imperative and it is impossible to secure or unfair to require immediate delivery at the maximum price which would otherwise be applicable, such purchases and deliveries may be made pursuant to the provisions of section 4.3 (f) of Revised Supplementary Regulation No. 1 to the General Maximum Price Regulation.

**Sec. 11. Petitions for amendment.** Any person seeking a modification of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1<sup>3</sup> issued by the Office of Price Administration.

**Sec. 12. Adjustments by Administrator or Regional Administrator.** The Administrator, or any regional administrator as to delivery points within his region, may make adjustments downward or upward to a maximum of 50 cents per hundredweight in the amounts set forth in paragraphs (2) and (4) of Appendix A IX to be added to the maximum carload prices.

**Sec. 13. Licensing.** The provisions of Licensing Order No. 1<sup>4</sup> licensing all persons who make sales under price control are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[RPS 85, Amdt. 12]

##### NEW PASSENGER AUTOMOBILES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.\*

Revised Price Schedule 85 is amended in the following respects:

1. Section 1360.51 is amended by deleting the phrase in paragraph (c) (2) "under the provisions of § 1360.52a".

2. Section 1360.52 is amended as follows:

§ 1360.52 *Maximum retail prices for new passenger automobiles when owned and being sold by persons generally engaged in the selling of new passenger automobiles at retail.* The maximum retail price for a new passenger automobile owned and being sold by a person generally engaged in the selling at retail of automobiles is a price that is the sum of the following items:

(a) The manufacturer's list price at the factory for the automobile with equipment standard as of October 15, 1941, as shown for each make and model in § 1360.61, as amended, less the following:

(1) An allowance for the fifth tire removed from the automobile in accordance with War Production Board Supplementary Limitation Order L-2-e. Where the manufacturer removed the tire, the allowance is the amount he deducted from the list price because of such removal. Where the seller at retail removed the tire, the allowance is 75% of the retail price of the tire.

(2) 75% of the retail price of each other piece of equipment standard as of October 15, 1941, which is removed from the automobile.

(b) An allowance for Federal excise taxes not to exceed the manufacturer's charge approximating and averaging the same, which charge shall be filed by the manufacturer with the Office of Price Administration. This item shall not include taxes on any removed equipment.

(c) An allowance for transportation which shall not exceed the actual rail freight charge at carload rate, by the most direct route, for the transportation of the automobile from the factory to the railroad freight receiving station nearest to the location of the seller making

delivery to the purchaser: *Provided*, That in the case of a sale by a seller located in any of the territories or possessions of the United States, the allowance for transportation may include the actual cost of shipment by all types of transportation outside the territorial boundaries of the United States actually used to deliver the automobile to such seller, and may include expenses incurred for packing, crating, dunnage, drayage, lighterage, war risk insurance, and wharfage.

(d) An allowance of 5% of (a) and (c) above, or \$75, whichever is lower (hereinafter called handling and delivery charges), in the case of an automobile not used except for the purpose of sale: *Provided*, That (1) when delivery was made after March 15, 1943, the automobile shall have received the operations set forth in § 1360.63 Appendix C: *Standard Delivery Operations*, as therein required, and at the time of delivery the seller shall deliver to the purchaser a copy of Appendix C, and shall execute and deliver to the purchaser and to the Office of Price Administration the certification regarding these operations required by § 1360.52b; (2) when delivery was made, on or before March 15, 1943, the automobile shall have received, either the operations set forth in Appendix C, or all of the services customarily performed in order to prepare the automobile for delivery to the purchaser and all of the factory recommended get-ready and delivery operations. However, where the automobile being sold is one kept in a customary sales room on display for sale, or is a demonstrator, company owned or executive car, the handling and delivery charges may be included without the performance of the operations in Appendix C. In the case of a sale of an automobile used other than for the purpose of sale, the amount of handling and delivery charges that could have been charged by a previous seller in accordance with this paragraph (d) may be included: *Provided*, That the present seller has knowledge and can furnish adequate evidence to his purchaser that such charges could have been made.

(e) An allowance (hereinafter called increment) equal to 1% of the list price of the automobile, or \$15, whichever is lower, for each calendar month, or greater part thereof, after January 31, 1942, which elapses prior to the delivery of the automobile to the purchaser, subject to the following conditions and qualifications:

(1) Maintenance operations in Appendix B shall have been performed in accordance with subdivision (i), (ii), (iii), or (iv).

(i) The automobile shall have received, on and after October 31, 1942, all the maintenance operations set forth in Appendix B.

(ii) The automobile has not received on and after October 31, 1942, all the maintenance operations set forth in Appendix B, but the time for the performance thereof has been extended to a certain date and the automobile shall have received on and after such date all

the maintenance operations set forth in Appendix B.

(iii) (a) The automobile has not received on and after October 31, 1942, all the maintenance operations set forth in Appendix B, but the seller has, prior to delivery, obtained permission from the Office of Price Administration in accordance with (b) below, to omit or postpone the performance of certain specified maintenance operations, and the automobile has received all the other maintenance operation set forth in Appendix B.

(b) In order to obtain permission to omit or postpone the performance of certain specified maintenance operations, the seller shall file a report with the nearest Regional Office of the Office of Price Administration setting forth: (1) The specified maintenance operations which have not been and/or will not be performed, and a detailed statement of the reasons therefor; (2) a statement that the automobile is not and will not be damaged by the nonperformance of such specified maintenance operations, and that the automobile is and will remain in a condition substantially equal to its condition when newly manufactured; and (3) a statement that the automobile has received and will continue to receive until the date of sale all the other maintenance operations set forth in Appendix B. If the Regional Office of the Office of Price Administration shall approve such report, or shall fail to disapprove such report within fifteen days after receiving it, the seller may omit the performance of the maintenance operations specified in such report.

(iv) The automobile has not received on and after October 31, 1942, all the maintenance operations set forth in Appendix B, but the following circumstances prevail:

(b) (1) Within thirty days after the transfer to the transferee the automobile shall have been reconditioned by the transferee and thereafter sold by such transferee to a person engaged generally in the selling of automobiles at retail (other than the person who failed to perform the maintenance operations set forth in Appendix B; or

(2) Within thirty days after the transfer to the transferee the automobile shall have been sold by the transferee to a person engaged generally in the selling of automobiles at retail (other than the person who failed to perform the maintenance operations set forth in Appendix B), and reconditioned by such retail dealer within thirty days after the sale to him; and

(3) The automobile shall have received, on and after the date on which it is reconditioned, until the date of sale, all the maintenance operations set forth in Appendix B.

(2) No increment shall be included for the period during which the automobile

is used for any purpose except for the purpose of sale. In the case of a sale of an automobile, used other than for the purpose of sale, the increment that could have been charged by a previous seller in accordance with this paragraph may be included: *Provided*, That the present seller has knowledge and can furnish adequate evidence to his purchaser that such increment could have been charged. The maximum price for this automobile may, in any event, include increment for the period, the present seller has the automobile in his possession: *Provided*, That he has performed the maintenance operations in Appendix B in accordance with this paragraph.

(3) Where the seller has refused on or after October 9, 1943, to sell any automobile to a bona fide holder of a ration certificate or a government exemption permit, who possesses the financial qualifications customarily required of a purchaser and is legally capable of entering into a contract and is willing to pay the maximum price, such a seller shall not include in the maximum retail price of any automobile any increment for the period beginning with the date of the refusal up to the date this regulation ceases to be in effect.

(4) The seller at the time of delivery shall execute and deliver to the purchaser and the Office of Price Administration the certificate required by § 1360.52a and shall execute and deliver to the purchaser the invoice or bill of sale required by § 1360.52c.

3. Section 1360.52a is deleted and a new § 1360.52a is added to read as follows:

§ 1360.52a *Maximum retail prices for new passenger automobiles when owned and being sold by persons not generally engaged in the selling of new passenger automobiles at retail.* The maximum retail price for a 1942 passenger automobile used other than for the purpose of sale (defined as a new passenger automobile in this regulation) when owned and being sold by a person not engaged generally in the selling of automobiles at retail is the price that this seller paid for such an automobile less 75% of the retail price of each piece of equipment he removed from the automobile: *Provided*, That he has knowledge and can furnish to his purchaser adequate evidence that the price he paid was in accordance with the then applicable maximum price. In any event, this seller may sell the automobile at a maximum price determined in accordance with § 1360.52 exclusive of increment and any allowance for handling and delivery charges.

4. Section 1360.59 is amended by the addition of the following paragraph (1):

(1) "Sale" includes sales, dispositions, exchanges, and other transfers and contracts and offers to do any of the foregoing. It includes conditional sales and sales under rental contracts, lease agreements or other agreements. The terms "sale", "seller", "selling", "purchase",

1. Section 1364.405 (f) is added to read as follows:

(f) *Temporary adjustments affecting frozen boneless beef (Army specifications) due to increased labor costs.* (1) Any person who shows that a War Procurement Agency has requested him to increase production, or to undertake production, of frozen boneless beef (Army specifications) and that his direct labor costs will be increased because such increased or new production requires the use of inexperienced labor or overtime work, may file an application in duplicate for adjustment either of the applicable maximum f. o. b. boning plant price established in § 1364.452 (m) or the maximum price for government contract boning established in § 1364.405 (e), to cover such increased direct labor costs. Such application shall be made on Form No. 636-590, a copy of which is contained in § 1364.531 of this regulation, and shall be filed with the appropriate regional office of the Office of Price Administration. The Regional Administrator shall, within seven days after receipt of the application issue an order either granting such adjustment as he deems appropriate, but in no event more than \$1.00 per hundredweight for adjustment under § 1364.452 (m) or \$.72 per hundredweight for adjustment under § 1364.405 (e), or denying the application. Applicants operating more than one plant shall file separately for each plant at which an adjustment is sought. Following issuance of an order pursuant to this paragraph (d) the Regional Administrator shall forward a copy of the application together with a copy of the order and such other data as were used in the determination to the Administrator at Washington, D. # PART 1364—FRESH, CURED AND CANNED MEAT AND FISH

[MPR 418, Amdt. 18]

## FRESH FISH AND SEAFOOD

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.\*

Maximum Price Regulation No. 418 is amended in the following respects:

1. Section 2 (a) is amended to read as follows:

(a) *Ex-vessel fish.* Table A (Article IV, section 20 (a)), lists the species of fresh fish and seafood (including shellfish and mollusks) for which maximum prices are established by this regulation. The prices are fixed for each month. For each month, there are two columns of prices. The prices in Table A for sales by producers apply irrespective of the nature of the purchaser and irrespective of whether the fish are sold through an agent of any kind. Nevertheless, a producer who performs the functions of a primary fish shipper wholesaler or other wholesaler at his

established place of doing business, and who for the substantial portion of the year prior to July 13, 1943, was engaged in performing the functions of a primary fish shipper wholesaler or other wholesaler at his established place of doing business, may sell at the prices provided in Table B, D or E depending on the character of the sale. The left-hand pricing column is the producer's maximum price at the port of entry for the designated species in bulk, ex-vessel, i. e., in the customary way in which the particular species is landed at that port, and of the customary size, where size is a factor in the price. War risk insurance premiums may be paid in addition to the listed maximum prices for those species of fish and in those localities where such premiums have customarily been paid by purchasers of the fish.

2. Section 3 (a) is amended to read as follows:

(a) *Sale by a primary fish shipper wholesaler.* A sale by a primary fish shipper wholesaler is a sale by a person who buys and receives fresh fish or seafood from a producer at a port of entry or inland and who sells bulk, boxed, barreled or packaged fresh fish or seafood from his established place of doing business to other wholesalers (retailer-owned cooperative, cash and carry, and service and delivery) or to a retail chain store warehouse.

3. In section 20, Table A, Item Nos. 10, 11 and 12 are added to Schedule No. 2 to read as follows:

I have been advised that no strikes or stoppages have occurred since October 25 or are threatened in the coal mines of the mining companies listed in Appendix A. Based on such advice, and after consideration of all the circumstances, I find that the possession by the Government of such mines is not required for the furtherance of the war program.

Accordingly, I order and direct that the possession by the Government of the mines of the mining companies listed in Appendix A, attached hereto and made a part hereof, including any and all real and personal property, franchises, rights, facilities, funds, and other assets used in connection with the operation of such mines be, and it is hereby, terminated and that there be conspicuously displayed at those mining properties copies of a poster to be supplied by the Coal Mines Administration and reading as follows:

Notice: Government possession and control of the coal mines of this mining company have been terminated by order of the Secretary of the Interior.

Provided, however, That nothing contained herein shall be deemed to preclude the Government from requiring the submission of information relating to operations during the period of Government possession and control as provided in section 40 of the Regulations for the Operation of Coal Mines under Government Control, as amended (8 F.R. 6655, 10712, 11344), for the purpose of ascertaining the existence and amount of any claims against the United States so that the administration of the provisions of Executive Order No. 9393 (8 F.R. 14877) may be concluded in an orderly manner: And provided further, That except as otherwise ordered, the appointments of the Operating Managers for the mines of the companies listed in Appendix A shall continue in effect.

### OFFICE OF PRICE ADMINISTRATION.

[Order 10 Under 19a of GMPR]

#### COMMON AND FACE BRICK

#### ORDER AUTHORIZING ADJUSTABLE PRICES

A petition has been filed by several brick manufacturers with plants located in the State of New Jersey for an amendment to Maximum Price Regulation No. 188, as amended, to increase the presently established maximum prices under that regulation for common and face brick. This order is applicable only to manufacturers of such brick with plants located in the State of New Jersey.

It has been shown that authority to use adjustable pricing pending action on the petition for amendment is necessary to promote the production and distribution of common and face brick in the State of New Jersey and that such authority will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328. Therefore, in accordance with § 1499.19a of the General Maximum Price Regulation, which is made a part of Maximum Price Regulation No. 188, as amended, by incorporation; *It is hereby ordered:*

(a) Pending final determination by the Office of Price Administration on the petition for amendment now on file, manufacturers of common and face brick located in the State of New Jersey are hereby authorized to sell and deliver, and to offer to sell and deliver, common and face brick at prices not in excess of the maximum price established in accordance with Maximum Price Regulation No. 188, as amended: *Provided however*, That offers to sell, sales, and deliveries may be made at prices adjustable to those resulting from final action taken by the Office of Price Administration upon the petition for amendment. Manufacturers who avail themselves of the adjustable pricing authority permitted under this order may not receive and purchasers may not pay an amount in excess of maximum prices permitted by Maximum Price Regulation No. 188, as amended, unless and until final action is taken by the Office of Price Administration establishing maximum prices in excess of those presently in effect.

(b) This order shall be automatically revoked upon the establishment by the Office of Price Administration of maximum prices for common and face brick produced by manufacturers with plants located in the State of New Jersey higher than the maximum prices now prevailing, or upon denial of the petition for amendment. This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective December 2, 1943.

**Regional and District Office Orders.**

[Arkansas Order 1 Under Restaurant MPR 5-10]

**FOOD AND DRINK FOR IMMEDIATE CONSUMPTION IN PULASKI COUNTY, ARK.**

Order No. 1 under Restaurant Maximum Price Regulation No. 5-10. Food and drink sold for immediate consumption. Specific prices for certain food items and meals.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority reserved in the District Director of the Arkansas District Office of Region V by section 22 of Restaurant Maximum Price Regulation No. 5-10, it is hereby ordered:

**SECTION 1. Purpose of order.** It is the purpose of this order to establish specific maximum prices for certain food items,

beverages and certain meals sold by eating or drinking places covered by Restaurant Maximum Price Regulation No. 5-10 in Pulaski County, Arkansas, except boarding houses.

**Sec. 2. Your ceiling prices.** Your ceiling prices for the food items listed in Appendix A and for the meals required to be served by section 4 are the prices entered in Appendix A for the group of eating or drinking places to which your establishment belongs. The meals are further described in Appendix B. The ceiling prices listed in Appendix A will prevail over the prices established under Restaurant Maximum Price Regulation No. 5-10 for these food items or meals. Your ceiling prices for all other food items or meals will continue to be those established under Restaurant Maximum Price Regulation No. 5-10. Lower prices than those established by Appendix A may, of course, be charged.

**Sec. 3. Classifications—(a) The groups.** This order classifies eating or drinking places into nine groups and establishes ceiling prices applicable to each group. The groups are as follows:

(1) Any eating or drinking place operated by or in connection with a drug store belongs to Group A.

(2) Any eating or drinking place, other than those operated by or in connection with a drug store, belongs to either Group B or Group C if it derives the greatest percentage of its dollar volume of business from sales of sandwiches and drinks. It belongs to Group B if the prices which it charged during the seven-day period from April 4 to April 10, 1943, correspond more closely to the ceiling prices listed in Appendix A or Group B places than they do to the ceiling prices listed in Appendix A for Group C places. Conversely, it belongs to Group C if its April 4-10 prices correspond more closely to the Group C than to Group B ceiling prices.

(3) Any other eating or drinking place belongs to either Group D, Group E, Group F, Group G, Group H, or Group I. It belongs to Group D if the prices which it charged during the seven-day period from April 4 to April 10, 1943, correspond most closely to the ceiling prices listed in Appendix A for Group D places; to Group E if its April 4-10 prices correspond most closely to the ceiling prices established for that Group; to Group F if its April 4-10 prices correspond most closely to the ceiling prices established for Group F; to Group G if its April 4-10 prices correspond most closely to the ceiling prices established for Group G; to Group H if its April 4-10 prices correspond most closely to the ceiling prices established for Group H; and to Group I if its April 4-10 prices correspond most closely to the ceiling prices established for Group I.

(4) Any eating or drinking place which during the period April 4-10, 1943, did not sell any items contained in Appendix A shall be in the same group as other establishments in the vicinity having substantially the same clientele, the same service and the same quality of food.

(b) *Determination.* The District Director of the Office of Price Administration will determine the Group to which your eating or drinking place belongs and will notify you of his determination. If, however, you have received no such notice by the effective date of this order or by the date when your place is first open, whichever is later, you must immediately inform the District Director and request him to determine your proper classification. When you have made such a request you may sell at the ceiling prices for the Group to which you believe your place belongs under the terms of paragraph (a), until such time as the District Director notifies you of your proper classification. If you fail to request the District Director to determine your proper classification, your eating or drinking place is automatically classified in Group D, and you must not charge prices higher than the ceiling prices established for this Group.

(c) *Review of determination.* If you believe you have been improperly classified by the District Director you may apply for a reconsideration of his determination. Your application must be filed within thirty days after you receive notice of the classification.

SEC. 4. *Duty to serve certain meals.* (a) If you serve noon-day luncheons, whether table d'hôte or a la carte, and if your place belongs to a group for which a noon-day luncheon price is listed in Appendix A, you must offer each day except Sunday at or below the price so listed at least two different luncheon selections of a content and quality equal or superior to the luncheons described in Appendix B. You may quote the price for these two luncheon selections either as a table d'hôte price for the complete luncheon or as a la carte prices for each item entering into the luncheon. However, if you quote prices for each item separately, the sum of these prices must not be more than the price listed in Appendix A for the complete luncheon.

(b) If during the seven-day period from April 4-10, 1943, your establishment served no luncheons other than specialty meals such as steak dinners, chicken dinners, barbecued beef, or Mexican and Chinese dishes, you may apply to the District Director for relief from the obligation to serve the meals described in Appendix B.

SEC. 5. *Posting.* (a) In addition to the posting required by Restaurant MPR No. 5-10, you must post in a conspicuous place your classification as determined by the District Director and a copy of the prices applicable to your establishment under this order.

(b) If you have been relieved of the necessity of serving noon-day luncheons under section 4 of this order, you must post in a conspicuous place in your establishment the certificate of the Director relieving you of that necessity.

SEC. 6. *Definitions.* (a) "Noon-day luncheon" means any entree or main dish served separately or in combination with

other food items or beverages as a mid-day meal, every day except Sunday.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, the General Maximum Price Regulation, and Restaurant Maximum Price Regulation No. 5-10, shall apply to the other terms used herein.

This order shall become effective November 17, 1943.

THE UNITED GAS IMPROVEMENT CO., ET AL.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 30th day of November 1943.

In the matter of the United Gas Improvement Company, applicant, File No. 54-65, and the United Gas Improvement Company and Subsidiary Companies, respondents, File No. 59-6:

Notice is hereby given that The United Gas Improvement Company (U. G. I.), a registered holding company and a subsidiary of The United Corporation, also a registered holding company, has filed an application in the above consolidated proceeding, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, for approval of a supplemental plan for the divestment of substantially all of its holdings of securities of its subsidiary, Delaware Power and Light Company (Delaware Power), and for the taking of other related action; such plan being supplemental to an original plan

heretofore approved by the Commission (see Holding Company Act Release No. 4173).

All interested persons are referred to said document, which is on file in the office of the Commission, for a full statement of the action therein proposed, which may be summarized as follows:

U.G.I. proposes to distribute to its stockholders, as a partial distribution of capital, 1,162,600 shares of the common stock of Delaware Power in the ratio of one share of Delaware Power stock for each 20 shares of the capital stock of U.G.I. No fractional shares are to be issued, but in lieu thereof U. G. I. proposes to distribute cash based on the average market value (on a when distributed basis) of Delaware Power stock as traded on the Philadelphia Stock Exchange, for the period March 27, 1944 to March 31, 1944, both inclusive.

The distribution is to be made to stockholders of record as of a date to be fixed by the board of directors of U. G. I. as soon as practicable (after the effective date of the supplemental plan) without the surrender of the stock certificates of U. G. I. Subject to appropriate corporate proceedings, the stated capital applicable to the capital stock of U. G. I. is to be reduced in the amount of \$16,463,014, without changing the number of authorized or issued shares outstanding. Contingent and other liabilities and obligations of U. G. I. are not to be discharged by the plan, but the proposed distribution is to be made free and clear of any and all claims and demands of creditors.

The plan is to be declared effective by the board of directors of U. G. I. within 90 days after the entry by the Commission of an order of approval, but consummation thereof is contingent upon a favorable vote of a majority of the outstanding shares of the capital stock of U. G. I.

The Commission being required by the provisions of section 11 (e) of said act, before approving any plan thereunder, to find, after notice and opportunity for hearing, that such plan, as submitted or as modified, is necessary to effectuate the provisions of section 11 (b) and is fair and equitable to the persons affected by such plan; and

It appearing to the Commission that it is appropriate, in the public interest and in the interests of investors and consumers, that a hearing be held with respect to such plan;

*It is ordered*, That a hearing on such matter, under the applicable provisions of said act and the rules promulgated thereunder, be held on December 14, 1943 at 10 a. m. at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such date the hearing-room clerk in Room 318 will advise as to the room in which said hearing will be held.

*It is further ordered*, That Willis E. Monty, or any other officer or officers of the Commission designated by it for that purpose; shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all the powers granted to the Commission under section 18 (c) of said act and to a trial

examiner under the Commission's Rules of Practice.

*It is further ordered*, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this order by registered mail to the above-captioned parties as well as to all other parties and persons previously granted the right to be heard and participate in the above-entitled proceeding; and that notice of said hearing is hereby given to all security holders of U. G. I. and its subsidiaries, to all States, municipalities, or political subdivisions of States in which are located any of the utility assets of the holding company system of U. G. I. or under the laws of which any of said subsidiary companies are incorporated; to all State Commissions, State Security Commissions and all agencies, authorities or instrumentalities of one or more states, and to all other interested persons, such notice to be given by a general release by the Commission, distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935 and by publication of this order in the FEDERAL REGISTER.

*It is further ordered*, That any person desiring to be heard, or otherwise to participate in these proceedings, shall, on or before the 10th day of December, 1943, file a written application with the Secretary of the Commission, in accordance with the provisions of Rule XVII of the Commission's Rules of Practice.

*It is further ordered*, That, without limiting the scope of the issues presented in the consolidated proceeding, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the proposed supplemental plan is necessary to effectuate the provisions of section 11 (b) of said act and is fair and equitable to the persons affected thereby;
2. Whether the fees, expenses and other considerations to be paid or received, directly or indirectly, in connection with the proposed plan and the transactions incidental thereto are for necessary services or purposes, reasonable in amount, and properly allocated;
3. Whether the transactions involved comply with all the requirements of the applicable provisions of the act and rules promulgated thereunder;
4. Generally, whether any of the proposed transactions are detrimental to the public interest or the interests of investors or consumers or will tend to circumvent the provisions of the act or any rules, regulations or orders of the Commission thereunder;
5. Whether, and, if so, to what extent, the proposed supplemental plan should be modified or terms and conditions imposed to assure adequate protection of the interests of investors, consumers and the public interest and compliance with all applicable requirements of the act.

By the Commission.

*It is further ordered*, That the request of Standard Gas and Electric Company that the Commission make a finding at this time that the provisions and restrictions contained in the order of December 27, 1938, with respect to said Class B common stock have been fulfilled and satisfied be, and same hereby is, denied.

CONSOLIDATED ELECTRIC AND GAS CO. AND  
CENTRAL ILLINOIS ELECTRIC AND GAS CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 30th day of November, A. D. 1943.

Notice is hereby given that applications or declarations or both have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("the act") by Consolidated Electric and Gas Company ("Consolidated"), a registered holding company, and its subsidiary, Central Illinois Electric and Gas Co. ("Central Illinois"). All interested persons are referred to the said document, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

Consolidated is the owner of all the outstanding capital stock of Central Illinois, such stock consisting of 74,242 shares of common stock without par value and having a stated value of \$6,310,570. It is proposed that such stock shall be reclassified into 400,000 shares of common stock of the par value of \$15 per share, or an aggregate par value of \$6,000,000, and that, as so reclassified, said stock shall be sold by Consolidated to the public through underwriters.

In connection with such proposed sale of stock, exemption from the competitive bidding requirements of Rule U-50 of this Commission is requested.

The common stock of Central Illinois, so owned by Consolidated, is presently pledged under a Collateral Deposit Agreement securing a promissory note of Consolidated payable to Federated Utilities, Inc. (later merged with Consolidated), which note, in turn, is pledged under an indenture ("Federated indenture") securing certain bonds known as Federated Utilities, Inc. First Lien Collateral Trust 5½% Gold Bonds, due March 1, 1957 ("Federated bonds"), which bonds have heretofore been assumed by Consolidated. It is proposed that the proceeds of the sale of the stock of Central Illinois shall successively, first, be applied in partial payment of the promissory note to secure which such stock is presently directly pledged, secondly, be then deposited with the trustee under the Federated indenture, Harris Trust and Savings Bank of Chicago, Illinois, in accordance with the terms of said indenture, thirdly, be applied to the amount necessary for such purpose in the retirement of all of said outstanding Federated bonds, and, fourthly, to the extent not so expended, be applied in the retirement of other bonds of Consolidated as hereinafter set forth. It is stated that the proceeds from the sale of said stock will exceed the principal amount of the Federal bonds outstanding. The applicants, or declarants, assert that the proposed transactions are proposed as steps in compliance with the requirements of section 11 of the act and that the retirement of Federated bonds,

as contemplated, will not constitute a voluntary or optional redemption of such bonds within the meaning of the indenture securing the same, and, for this reason, request an order of this Commission to the effect that the obligations evidenced by the Federated bonds shall be discharged and the lien of the Federated indenture shall be satisfied by payment in cash of the principal amount of said bonds plus accrued interest thereon to the date of redemption without the payment of any redemption premium thereon.

It is stated that, subsequent to the satisfaction of the lien of the Federated indenture and in accordance with the indenture securing the Collateral Trust Gold Bonds of Consolidated ("Consolidated Bonds"), the portion of the cash proceeds of the sale of the common stock of Central Illinois as shall not have been expended in the retirement of the Federated bonds and any other remaining collateral securing such Federated bonds will be deposited with the Trustee under the indenture securing said Consolidated Bonds, Central Illinois National Bank and Trust Company of Chicago. Consolidated proposes to expend in the purchase of Consolidated bonds, on the open market through brokers, an amount equivalent to the portion of the proceeds of said sale of common stock of Central Illinois Electric and Gas Co. so to be deposited with the trustee under the indenture securing said Consolidated bonds, to surrender the bonds so purchased to the trustee for cancellation, and to be then reimbursed by said trustee from said sale proceeds as provided in said indenture.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said matters and that said application and declaration shall not be granted except pursuant to further order of this Commission;

*It is ordered*, That a hearing on said matters under the applicable provisions of said act and rules of the Commission thereunder be held on December 14, 1943, at 10:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room in which the hearing will be held.

*It is further ordered*, That any person desiring to be heard or otherwise to participate in the proceedings, shall file with the Secretary of the Commission, on or before December 10, 1943 his application therefor, as provided by Rule XVII of the Rules of Practice of the Commission.

*It is further ordered*, That Henry C. Lank or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's Rules of Practice.

*It is further ordered*, That the Secretary of this Commission shall serve notice of the aforesaid hearing by mailing a copy of this order to Consolidated Electric and Gas Company, Central Illinois Electric and Gas Co., Harris Trust and Savings Bank, Continental Illinois National Bank and Trust Company of Chicago, and the Illinois Commerce Commission by registered mail; and that notice of said hearing be given to all other persons by publication of this order in the FEDERAL REGISTER;

*It is further ordered*, That without limiting the scope of the issues presented by said application and declaration, particular attention shall be directed at said hearing to the following matters and questions:

(1) Whether the proposed reclassification by Central Illinois Electric and Gas Co. of its presently outstanding common stock without par value, but with a stated value of \$6,310,570, into new common stock of the par value of \$15 per share, and the aggregate par value of \$6,000,000, meets the applicable requirements of the act and the rules and regulations of this Commission promulgated thereunder;

(2) Whether the proposed sale by Consolidated of the common stock of Central Illinois, as proposed to be reclassified, meets the requirements of section 12 (d) of said act and the rules and regulations of this Commission promulgated thereunder, and particularly whether the consideration to be received for such stock will be adequate, competitive conditions will be maintained, and any fees or commissions to be paid in connection with such sale will not be unreasonable;

(3) Whether exemption should be granted from the competitive bidding requirements of Rule U-50 of this Commission in connection with the proposed sale of the common stock of Central Illinois Electric and Gas Co.;

(4) Whether the proposed transactions are necessary to effectuate the provisions of section 11 (b) of said act and are fair and equitable to all persons affected thereby, and, particularly, whether the proposal that the indebtedness represented by the Federated bonds be satisfied by payment of the principal amount thereof with accrued interest to the date of payment, but without payment of any redemption premium thereon is necessary to effectuate the provision of said section 11 (b) and is fair and equitable to the holders of the said bonds and to all other persons affected thereby;

(5) Whether the proposed use of the proceeds of the contemplated sale of the common stock of Central Illinois in the retirement of the Federated bonds and in the acquisition and partial retirement of the Consolidated bonds meets the requirements of section 12 (c) of the act, and the rules and regulations of this Commission promulgated pursuant thereto, and is fair and equitable to all persons affected thereby, and, especially, whether the proposal of Consolidated Electric and Gas Company that said Consolidated bonds, so to be acquired and retired, be acquired through purchases thereof in the open market, through brokers, is fair and equitable to the hold-

ers of said bonds and to the holders of other securities of said Consolidated Electric and Gas Company;

(6) Whether the accounting entries proposed to be made in connection with the proposed transactions are in accordance with sound accounting principles and are otherwise appropriate;

(7) Whether, if the proposed transactions, or any of them, are authorized, it is necessary or appropriate that terms or conditions be imposed in the public interest or for the protection of investors or consumers in connection with such authorization;

(8) Generally, whether, in any respect, the proposed transactions are detrimental to the public interest or to the interest of investors or consumers or will tend to circumvent any provisions of the act or of any rules, regulations, or orders of this Commission promulgated thereunder.

By the Commission.
